A close-up photograph of a corner joint in a wooden cabinet. The cabinet is made of a light-colored wood with a visible grain. Two dark metal profiles, labeled 'Profil 1.' and 'Profil 2.', are attached to the inner edges of the cabinet's corner. The profiles meet at a 90-degree angle. Two small metal rivets, labeled 'Nittes.', are visible on the corner joint, securing the profiles together. The text labels are in red. The number '9.' is in the bottom right corner.
